## “The Davos of Motorsport Engineering & Technology”

The RACE TECH World Motorsport Symposium, first established in 2005, has gained a reputation as the ‘Davos of Motorsport Engineering & Technology’ where key international industry figures get together under one roof to discuss the future of motorsport, engineering and technology. Chaired by Ulrich Baretzky, Former Director, Audi Motorsport Engine Development, Audi AG and Pat Symonds, Chief Technical Officer Motorsport Division, FORMULA 1®, along with the support from the RACE TECH team, the 16th World Motorsport Symposium will take place on Thursday 1st & Friday 2nd December 2022 at The Embassy of Switzerland in London.

The two day innovative symposium takes place in the style of a cabinet meeting with key speakers, a panel of international senior motorsport executives and an audience made up of the motorsport and automotive industry including top decision makers, suppliers and universities bringing the next generation of engineers. The proceedings are governed by the ‘Chatham House’ rule generating a much more open debate like no other event. The concept of the electric single seater racing series was first mooted at the symposium that has since become the extremely successful Formula E as was the Global Race Engine concept. Knowing that it won’t be reported, governing bodies also talk in confidence about their future plans which is a huge coup for the audience.

There are also over two hours of networking time between the symposium sessions which also provides a perfect opportunity for exhibitors to showcase their latest technology and services. There is also a Networking Awards Dinner at the end of the first day where our team meticulously plan the event and also the table plans to ensure that all guests experiences are optimised and that business connections are made.

“From Evolution’s standpoint, WSM 2018 was well organised and delivered on all fronts, papers, discussions and the general timetable were all well managed and kept on time with some lively discussion in between that will help shape developments in Motorsport going forwards. The Chairmen, Ulrich Baretzky and John Iley did a great job of promoting some very intelligent conversation in the panel events. The exhibition area was well organised and there was plenty of time to talk with industry colleagues and prospective clients on a variety of topics.
